WE ARE DESIGNING LOVELY CARPETS WITH NEW LOVE

We prepared our patchwork carpets with the mission of giving life to the carpets that are stitched to the stitches of working women in Anatolia.

We are presenting hand-made carpets, each one of which is special, with privileged designs without losing its value. Carpets woven by master hands are brought together by master hands.

Our 2020 patchwork collection is made from original Anatolian carpets and rugs. Our carpets woven in different parts of Anatolia are swen by hand in Usak. Design by Şeyda Elif Çakmak, our patchwork carpets can be made in special sizes and colors suitable for your decoration.
